SUMMARY

Frontend-focused Full-Stack Developer with 1+ years of experience building responsive, high-performance web applications with React, TypeScript, and Angular. Experienced in REST API integration, database schema design, and delivering features end-to-end in Agile teams alongside designers and backend engineers, with a focus on reusable component architecture and code-review practices.

SKILLS

Languages & Markup: HTML5, CSS3, JavaScript (ES6+), TypeScript, PHP

Frontend: React, Next.js, Angular, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js**,** Nest.js, Laravel

Databases: MongoDB, MySQL

Tools & Practices: Git, GitHub, RESTful APIs, Agile/Scrum, Responsive Design, UI/UX Implementation

PROFESSIONAL EXPERIENCE

Frontend Developer, *Infotech Global* 07/2025 – 03/2026

- Owned frontend features end-to-end across multiple release cycles in a full-stack React application.
- Cut page load time by 35% and data-fetch latency by 40% through frontend optimization and REST API integration.
- Partnered with backend engineers on RESTful API design (Nest.js) to ensure reliable data flow between client and server.

Frontend React Intern, *ABS.AI* 01/2025 – 03/2025

- Shipped dynamic React features in a sprint-based Agile team, contributing to daily standups, sprint planning, and code reviews.
- Converted Figma mockups into responsive, production-ready components with React and Tailwind CSS, matching designs across devices.

Frontend Angular Intern, *Yearex Group* 09/2024 – 12/2024

- Redesigned the company website in Angular with reusable, responsive components, improving consistency across pages.
- Built a shared Angular component library used across the redesigned site, reducing duplicated code and speeding up new page development.

Summer IT Trainee, *QNB Al-Ahli* 06/2019 – 07/2019

- Rotated across IT department sections, gaining exposure to enterprise problem-solving and emerging technologies.

PROJECTS

E-commerce, *React, Swiper, Material UI, Laravel, MySQL*
- Delivered a full-stack e-commerce platform with product discovery, and cart management, featuring reusable components and a mobile-first responsive UI.
- Designed and integrated Laravel REST APIs with MySQL for product, cart, and order management, ensuring efficient data handling and scalability.

EventBook, *React, Tailwind CSS, Swiper, Axios, Node.js, MongoDB, Express.js*
- Built a full-stack ticket booking platform with an end-to-end booking flow for attendees and a dedicated organizer dashboard for event creation, ticket management, and sales tracking.

News Today, *React, Tailwind CSS, Axios , Nest.js, MongoDB*
- Developed a Nest.js REST API serving cached news data, reducing redundant fetches and improving load performance.
- Designed a MongoDB schema for scalable content categorization, enabling fast filtering and search across articles.

Jubari Clone, *Angular, Bootstrap, Laravel, MySQL*
- Delivered a full-stack travel booking platform with destination discovery, search and filtering, and secure reservations.
- Modeled relational data for destinations and other services in MySQL.

Adidas Clone, *Angular, Bootstrap*
- Responsive e-commerce UI with reusable components across product listing, detail, and cart views.

Finexo, *HTML, CSS, Bootstrap, JavaScript*
- Fully responsive corporate website with a component-based layout.

EDUCATION

Bachelor's Degree in Computer Engineering, 2018 – 2023
Modern Sciences & Arts University (MSA), dual degree with University of Greenwich

IGCSE, *Orouba Language Schools* 2015 – 2018

CERTIFICATIONS

Full-Stack Web Development Certificate
- Completed a comprehensive full-stack program covering HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL, building a strong foundation for developing dynamic and responsive web applications.

Tech Track Certificate – Digitera Program
- Completed the Tech Track program by Digitera, organized by iCareer under the Youth Inclusion and Employment Program, Ready for Tomorrow.
- Recognized for commitment to professional development and continuous learning in the technology sector.
