SUMMARY

Frontend Developer with 1.5+ years of experience building responsive, production-grade web applications in Agile/Scrum teams. Skilled in REST API integration, state management, reusable component architecture, cross-browser compatibility, and performance optimization. Full-stack experience designing and building REST APIs and data models with Node.js, Express, NestJS, Laravel, MongoDB, and MySQL. Open to frontend and full-stack developer roles.

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, PHP

Frontend: React, Next.js, Angular, Tailwind CSS, Bootstrap

Backend: Node.js, Express, NestJS, Laravel, RESTful APIs

Databases: MongoDB, MySQL

Tools and Practices: Git, GitHub, Agile/Scrum, Figma-to-code, responsive design, performance optimization, reusable component design

PROFESSIONAL EXPERIENCE

Frontend Developer, *Infotech Global*
07/2025 – 03/2026
- Cut page-load time by 35% on API-driven pages by applying caching and lazy loading.
- Built and shipped frontend features for Wazifame, a full-stack recruitment platform, across multiple release cycles.
- Integrated NestJS RESTful APIs with the React frontend via TanStack Query, ensuring cross-browser compatibility.

Frontend React Intern, *ABS.AI*
01/2025 – 03/2025
- Converted Figma designs into responsive, production-ready React and Tailwind CSS components.
- Shipped dynamic React features in an Agile team: daily stand-ups, sprint planning, and code reviews.

Frontend Angular Intern, *Yearex Group*
09/2024 – 12/2024
- Built a reusable Angular component library that reduced duplicated UI code by 20% and sped up page development across the whole project.
- Redesigned the company website with reusable, responsive Angular components, improving maintainability and visual consistency.

Summer IT Trainee, *QNB Al-Ahli*
06/2019 – 07/2019
- Rotated across IT department functions and gained exposure to enterprise systems, workflows, and technology operations.

PROJECTS

E-commerce Platform (Full-Stack) , *React, Swiper, Laravel, MySQL*
- Built a responsive e-commerce application with product discovery and cart management.
- Designed and integrated Laravel RESTful APIs with MySQL for product, cart, and order management.

Ayno (Frontend) , *Next.js, Tailwind CSS*
- Open-source real-time platform with a polyglot architecture designed for millions of concurrent connections with minimal latency.
- Contributed to improving the user interface by refining layouts, components, and responsive behavior across devices.

EventBook (Full-Stack) , *React, Tailwind CSS, Swiper, Axios, Node.js, MongoDB, Express*
- Built a ticket-booking platform with an end-to-end attendee booking flow.
- Integrated frontend components with backend APIs and MongoDB data models.

News Today (Full-Stack) , *React, Tailwind CSS, Axios, NestJS, MongoDB*
- Developed a NestJS REST API that serves cached news data, cutting redundant requests and improving load performance.

Travel Booking Platform - Jubari Clone (Full-Stack) , *Angular, Bootstrap, Laravel, MySQL*
- Built a travel-booking platform with destination discovery, search, filtering, and reservations.
- Developed responsive Angular interfaces with reusable components.

Adidas Clone (Frontend) , *Angular, Bootstrap*
- Implemented a responsive e-commerce interface with reusable components for product listing, details, and cart views.

Finexo (Frontend) , *HTML, CSS, Bootstrap, JavaScript*
- Built a fully responsive corporate website with a reusable, component-based layout.

EDUCATION

Bachelor's Degree in Computer Engineering, *Modern Sciences & Arts University (MSA)*
2018 – 2023

IGCSE, *Orouba Language Schools*
2015 – 2018

CERTIFICATIONS

Full-Stack Web Development Certificate
- Completed training in HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL through YAT Learning Centers.

Tech Track Certificate – Digitera Program
- Completed the Tech Track program by Digitera, organized by iCareer under the Youth Inclusion and Employment Program, Ready for Tomorrow.
