SUMMARY

Computer Engineer with a solid foundation in both frontend and backend development, complemented by hands-on experience delivering diverse web-based projects. Proficient in building responsive, user-centric applications and collaborating effectively within cross-functional teams to achieve high-quality outcomes. Demonstrates strong adaptability to emerging tools and technologies, coupled with a commitment to continuous professional development and staying aligned with industry advancements. Eager to contribute a versatile technical skill set and a solution-oriented engineering mindset to a forward-thinking development team.

EDUCATION

2018 – 2023	Bachelor Degree in Computer Engineering <i>Modern Sciences & Arts University</i>
2018 – 2023	Bachelor Of Science in Computer Engineering <i>Greenwich University</i>
2015 – 2018	IGCSE <i>Orouba Language Schools</i>

Courses

Full Stack Developer

YAT Learning Center

Completed a comprehensive certification program encompassing HTML, CSS, JavaScript, PHP, MySQL, and Bootstrap. This program provided a strong foundation in front-end and back-end development, enabling the creation of dynamic, responsive websites and applications.

Skills

HTML	CSS
Bootstrap	Tailwind
Java Script	Type Script
React	Angular
Next JS	Node JS
Nest JS	Mongo DB
MYSQL	Github

Professional Experience

- 06/2019 – 07/2019 **Summer IT Trainee**
QNB AL-AHLI
We got introduced to different sections of the IT department, and we knew more about the ways problems are solved and new technologies of each field.
- 09/2024 – 12/2024 **Front End Internship**
Yearex Group
Played a key role in front-end development projects, collaborating with cross-functional teams to redesign the company website using Angular. Helped implement responsive UI components that improved usability and redesigned core website components.
- 01/2025 – 03/2025 **React Intern**
ABS.AI
As a React Web Developer Intern, I developed multiple projects, developing and maintaining dynamic web applications using React. I collaborated closely with UI/UX developers to create responsive and user-friendly interfaces.
- 07/2025 – 03/2026 **Frontend Developer**
Info-Tech global
Contributed to the full-cycle development of web applications using React for the front end and collaborating with backend developers using NestJS. Played a key role in optimizing frontend performance, optimizing API integration, and ensuring the application performed reliably across all functions.

Projects

Wiki-Search [🔗](#)

HTML, CSS, Bootstrap, Java Script

Wiki-Search is an open-source project that aims to replicate Wikipedia's core features, offering a user-friendly platform for collaborative content creation and knowledge sharing.

Finexo [🔗](#)

HTML, CSS, Bootstrap, Java Script

Static site that displays services provided by the company

Adidas Clone [🔗](#)

Angular, Bootstrap

A simple clone for adidas website

Jubari Clone [🔗](#)

Angular, Bootstrap

A simple clone for Jubari website where it is an online platform that offers a variety of travel services. The website provides users with information on various travel offers, including details on destinations, prices, duration, and group sizes.

News Today [🔗](#)

React, Tailwind, Axios, NestJS, Mongo DB

The website is a Full Stack website for a minimalist blog platform designed to showcase articles on various topics, including science, technology, health and sports. It features a clean, user-friendly interface.

EventBook [🔗](#)

React, Tailwind, Swiper, Axios, NodeJS, Mongo Db, Express

EventBook is a web application that enables users to easily browse and book tickets for various events. The app allows users to view available events, select their desired tickets, and complete the booking process online. With an intuitive and user-friendly interface, **EventBook** aims to make event booking quick and hassle-free for both organizers and participants.
